
Strategic Designer and User Researcher with 8+ years of experience turning complex, ambiguous problems into clear product direction. Specialised in mixed-methods research, innovation strategy, and cross-functional collaboration — with a track record of influencing venture models, product decisions, and organisational practice across medtech, industrial IoT, and construction tech.

WORK EXPERIENCE

2022 – Present

Strategic Designer · User Researcher

Henkel — Venture Building / New Business Models

- Led multidisciplinary research across venture-building and product-optimisation projects, including 100+ expert and user interviews, surveys, and iterative concept validation.
- Translated research into actionable outcomes: value propositions, service blueprints, journey maps, go-to-market strategies, and product and feature recommendations.
- Designed and facilitated co-creation workshops, ideation sessions, and alignment workshops with cross-functional teams including business units, product managers, engineers, and external partners.
- Supported innovation projects end-to-end — from problem discovery and opportunity validation to prototyping and commercial strategy.

2022 – 2022

Doctoral Researcher

Bauhaus-Universität Weimar

- Designed and conducted qualitative research on immigrant belonging, urban public space, and socio-spatial practices in Berlin.
- Combined interviews, fieldwork, observation, and thematic analysis to identify patterns across complex individual and social experiences.
- Translated findings into academic publications, conceptual frameworks, lectures, and conference presentations.

2017 – 2017

Project Manager / Editor

Actar Publishers · UrbanNext — Barcelona

- Coordinated editorial production for the Biennale publication series *Imminent Commons*, working with 10+ international authors and contributors.
- Managed content development, editorial workflows, digital communication, and promotion across print and online channels.
- Authored a research chapter for the *Imminent Commons* Biennale publication.

2013 – 2014

Teaching Assistant

Azad University — Tehran, Iran

- Supported studio teaching, student critiques, and development of architectural design projects for the Architectural Design II course.

2012 – 2013

Designer & Architectural Researcher

Transformers of Persian Architecture — Tehran, Iran

- Researched sustainable design practices and translated findings into strategic directions for architectural projects.

EDUCATION

2017 – 2022

Doctor of Philosophy in Urban Sociology

Bauhaus-Universität Weimar

- Research on how immigrants' use of urban public spaces and socio-spatial practices shape their sense of belonging in Berlin.

2014 – 2016

Master of Sustainable Design

KU Leuven

- Developed a research-through-design approach combining sustainable planning, spatial analysis, and experimental design methods.

2015 – 2016

Exchange Programme in Media Architecture

Bauhaus-Universität Weimar

2008 – 2013

Bachelor of Architecture & Design

Azad University

CORE CAPABILITIES

RESEARCH & STRATEGY

User interviews / Expert interviews / Survey design / Ethnography / Diary studies / Market research / Competitive analysis / Synthesis / Opportunity mapping

DESIGN & PRODUCT THINKING

Journey mapping / Service blueprinting / Persona & archetype development / Value proposition design / Prototyping / Data visualisation

FACILITATION & COLLABORATION

Workshop design / Co-creation / Stakeholder alignment / Agile collaboration / Cross-functional consulting

TOOLS

Figma / Miro / Dovetail / ATLAS.ti / Adobe CC / Confluence / MS Forms

English Full professional proficiency

German Intermediate proficiency · B1–B2
